G.O. Ms. No. 2381, P.H., dated 30th June 1949.

[Medical Colleges Rules for the selection of candidates—Modifications—Orders passed.]

Order—Ms. No. 2381, *P. H., dated* 30*th June* 1949.

The Government have examined the question whether any modifications are necessary in the existing rules for the selection of candidates for admission to the Medical Colleges. They have decided that as regards the existing communal, linguistic and district proportions the *status quo* should be maintained and that if there are any vacancies due to want of suitable candidates from a particular community such vacancies should be filled according to merit subject to the condition that the regional and district quotas are not affected.

2. They have also decided that,

(*a*) in considering admissions for the purpose of assessing marks, the marks obtained in English and the language need not be taken into account ;

(*b*) students who passed the Intermediate Examination in two sittings need not be penalised so long as they passed in Part III at the first sitting, candidates who pass in Part III in the second sitting being penalised by deduction of marks ;

(*c*) no weightage should be given to B.As. and B.Scs. who passed in III class or who passed in these examinations in two or more sittings ; and

(*d*) no weightage should be given for proficiency in games and for extra curricular activities.

3. The Government approve the following order of preference for the selection of candidates, suggested by the Surgeon-General, subject to the modification that candidates who passed the Intermediate Examination with Group I as optionals, i.e., Mathematics, Physics and Chemistry, will not be taken into consideration whether they passed in the first class or in the second-class :—

(*a*) Those who have taken the B.A. or B.Sc. degree with Physics, Chemistry, Zoology, Botany or Physiology as the main subject in the first class.

(*b*) Those who have passed the Intermediate Examination with Physics, Chemistry and Natural Science and Physics, Chemistry and Mathematics as optionals (both groups considered similarly) in the first class.

[23rd December 1949

(c) Those who have passed the B.A. or B.Sc. Degree with Physics, Chemistry, Zoology, Botany or Physiology in the second class.

(d) Those who have passed the B.A. or B.Sc. Degree with Physics, Chemistry, Zoology, Botany or Physiology as the main subject in third class.

(e) Those who have passed the Intermediate Examination with Physics, Chemistry, Natural Science or Physics, Chemistry and Mathematics in the second class.

(f) Those who have passed the Science group of B.A. or B.Sc. but not qualified for the degree.

(g) Those who have passed Intermediate with Physics, Chemistry and any other subject as optional.

(h) Those who have passed any other Examination accepted by the Syndicate as sufficient for admission to Medical College.

4. Six seats in the Medical Colleges shall be reserved to be filled by the Surgeon-General at his discretion in consultation with Government.

5. The Surgeon-General is requested to submit urgently with reference to these orders, a revised draft of the rules for the selection of candidates for admission to the Medical Colleges, for the approval of Government.
